### **Personalized Comfort - Made Easy With AI**

The world's First AI Enabled Smart Air Conditioner Controller - *But what is AI?*

Nowadays, Machine Learning is considered to be the most effective approach to achieving Artificial Intelligence; Machine Learning involves training a machine to learn from a large amount of data, leading it to adapt its program pattern based on what it learns.

## Ambi Climate

### Personalised comfort Made Easy with AI

Ambi learns from your feedback to auto-adjust your air conditioner, and maximize how you feel and save up to 30% on energy.

### Taking Everything Into Account

Do you know what affects your comfort? We do. Ambi Climate's sensors and live data will help create a personalized Comfort Profile, to optimally adjust your environment based on you.

### Discover a Whole New Level of Smart

Say goodbye to constant AC adjustments. See how Ambi Climate uses machine learning to maintain your comfort.

### AI Engine and Multiple Sensors

Intelligently learns from your feedback and analyzes online data to deliver the comfort you didn't know existed.

### Control at Your Fingertips

Always stay on top of things; view AC run time, average temperature and humidity, your favourite modes and your unique comfort profile.

**RRP: 1 499 SEK / 1 056 DKK\* / 142 EUR\***

Unique, machine learning algorithms analyze and learn what makes you most comfortable, then adjust to you.

Save up on energy costs and cut up to 30% off your electricity bill each month

*IFTTT and Alexa enabled, plus an open API for you to enjoy.*

# Kodak

**A technology company focused on imaging.**

Kodak provides - directly and through partnerships with other innovative companies - hardware, software, consumables and services to customers in graphic arts, commercial print, publishing, packaging, electronic displays, entertainment and commercial films, and consumer products markets.

- 2-way Audio Talkback

**RRP: 1 299 SEK / 929 DKK\* / 125 EUR\***

 LaMetric

**Technology should be our tool for reaching better productivity**

The clock is a simple and habitual object. From the early days, the clock makes us more organised by indicating what to do every moment of the day – not to be lazy and wake up for school, do homework in the evenings, don't spend too much time on watching cartoons, try to be on time for our first date.

## LaMetric

LaMetric tracks time, weather, emails, calendar events, tweets, followers, news, deadlines and any other metric needed for your home or business, and displays them almost in real-time! It works as an always-on display for the whole family by showing notifications from smart home devices and allowing anyone to control them with the click of a button. LaMetric Time eliminates the need to check multiple apps or news sites for the information you need. Instead, you receive key information at a glance, all in one place. The possibilities are endless. It also shows real-time notifications from IFTTT-connected services. LaMetric Time is standalone Wi-Fi device, iPhone or Android smartphone is needed for setting it up and configuration only. The interface is easy to use: left and right buttons for navigation between the apps, middle button for taking related actions. The form factor is sized to fit well on a table, shelf, shop-front or a counter.

- Track weather, emails, events, tweets, followers, news, deadlines and other metrics from the Internet almost in real-time.
- Wake up to your favorite Internet radio stations, stream music to stereo speakers via Bluetooth.

**RRP: 2 299 SEK / 1 742 DKK\* / 234 EUR\***

# NETATMO

**Your imagination. Our technologies. Connected.**

Netatmo develop groundbreaking, intuitive and beautifully-designed connected consumer electronics. Truly smart, their innovative products provide a seamless experience that helps users create a safer, healthier and more comfortable home.

### Wifi Wind Gauge

The anemometer is equipped with four ultrasonic sensors that continuously transmits signals. The anemometer uses variations of these signals to reliably and accurately measure wind speed and direction.

- You can set up how you want to be notified if the wind reaches a certain speed
- Get a more accurate "feels like" temperature using the weather station app.

**RRP: 999 SEK / 715 DKK\* / 96 EUR\***

### Wifi Rain Gauge

Rain Gauge measures the amount of rainfall per hour and the total amount of rain over longer periods of time. The measured values can be transmitted via Wi-Fi to Netatmo Weather Station and presented through the unique app on your phone.

- Keeps track of the flowers need watering, or if there is a risk of flooding
- Rainfall is shown directly in the app

**RRP: 699 SEK / 499 DKK\* / 67 EUR\***

### Wind/Rain Gauge Mount

Netatmo bracket makes it easy to mount your Rain / Wind gauge on a wall, ceiling, pole or railing.

**RRP: 279 SEK / 199 DKK\* / 27 EUR\***

### Smart Radiator Valves

Save 37% on your energy consumption and reduce your carbon footprint with the Netatmo Smart Radiator Valves.

Manage your home centrally from your smartphone. Change the temperature room-by-room from your bed or from anywhere in the world. Schedule your heating for your return from a holiday.

- Apple HomeKit approved
- Create a heating schedule based on your daily routine

**RRP: 1 999 SEK / 1 429 DKK\* / 192 EUR\***

### Weather Station

A new and unique comfort monitor that keeps an eye not only on your local weather but also the air quality and noise levels both indoors and temperature both outdoors and inside.

- Displays temperature, air quality, humidity etc.
- Two sensors that measure the climate indoors and outdoors

**RRP: 1 649 SEK / 1 179 DKK\* / 159 EUR\***

### Thermostat V2

It replaces your old thermostat and allows you to remotely control your heating system from your smartphone. All that is required is that the Thermostat is compatible with your heating system and that you have a WiFi network at home.

- Apple Homekit approved
- Remotely control your heating system from your smartphone

**RRP: 1 799 SEK / 1 289 DKK\* / 173 EUR\***

### Healthy Home Coach

Measures precisely what matters to get a healthier home and lets you know when something needs to be improved. With 4 accurate sensors you can measure your room's temperature, humidity, noise and indoor air pollution level.

- Monitor the sound level to achieve a good night's sleep.
- Apple Homekit approved

**RRP: 999 SEK / 715 DKK\* / 96 EUR\***

## Presence

With Presence, you can prevent burglary or vandalism to your property. Use streaming video to view your property in real time and receive alerts through your smartphone.

Presence detects and reports in real time when someone moves around around your home, car, driveway or your pet in the yard.

- Extremely long detection of up to 20 meters
- Compatible with IFTTT

**RRP: 2 999 SEK / 2 149 DKK\* / 289 EUR\***

## Welcome

Welcome send the names of the people it sees directly to your smartphone. You will be notified when your children or your parents are home. The camera also lets you know when it sees a stranger. You can easily see who right now are at home through the app and get access to a live stream and information about past events.

- Wide viewing angle of 130 degrees
- Superior night vision

**RRP: 1 999 SEK / 1 429 DKK\* / 192 EUR\***

# tend

**Despicable Me 3**

Let the Minions tend to what matters most! These fun and friendly HD Wi-Fi cameras allow you to check in while you're away, capture silly pet videos using the Pet Highlight Reel™, and transform your own voice into Minion-ese with the Minion translator.

## Minion Security Camera

Heading out? Let Stuart keep his eye on your favorite people, pets and places with the new Stuart Cam HD Wi-Fi camera that helps any family tend to what matters most, even when they can't be there. A built-in motion sensor triggers Stuart Cam to automatically begin recording when movement is detected. Receive instant notifications, review captured footage and get a live view of what Stuart Cam sees in real time. Night vision ensures Stuart Cam never misses a thing, providing round-the-clock monitoring and peace of mind. Each camera comes with 24 hours of free and secure cloud storage. Stuart Cam also delivers a personalized Pet Highlight Reel™, using smart pet detection technology that automatically summarizes a pet's best moments of the day into a fun music video.

- Two-way Audio Talkback, talk as a Minion with built in voice changer
- Lifetime 1-day Cloud Storage
- Night Vision

**RRP: 699 SEK / 499 DKK\* / 67 EUR\***
